Objective

MERN Stack Developer skilled in building dynamic, responsive, and scalable web applications using MongoDB, Express.js, React, and Node.js. Proficient in Core Java and SQL, with strong problem-solving and backend knowledge to deliver efficient full-stack solutions.

Skills

Programming Languages: Java, JavaScript

Databases: SQL, MongoDB

Frontend: HTML, CSS, React.js, Tailwind CSS, DaisyUI

Backend: Node.js, Express.js, REST APIs

Tools & Testing: Git/GitHub, Postman

Soft Skills: Problem-solving, Collaboration, Communication

Projects

Food Ordering Website — React, Express, MongoDB, NodeJS

Live

- Implemented user authentication (JWT) and secure password hashing (bcrypt) for safe login and registration.
- Built and deployed a full-stack food ordering website with an admin panel.
- Integrated MongoDB for storing users, orders, and menu details.
- Developed a secure backend API with Node.js & Express.js for authentication and order management.
- Used Axios for frontend-backend communication and Mongoose for database schema management.

Quick-Gpt — React, Tailwind CSS, MongoDB, NodeJS

Live

- Built QuickGPT, a custom AI assistant using React.js and Gemini API for real-time query responses.
- Designed and implemented secure authentication, context management, and community features for interactive usage.
- Deployed the application on Vercel with GitHub integration, ensuring scalability and smooth performance.

Education

2022 – Present	Bachelor of Technology, Trident Academy of Technology, Bhubaneswar (8.19/10)
2022	Class XII, High School Tisri, Barahmasiya (86.8%)
2020	Class X, High School Tisri, Barahmasiya (86.6%)

Certifications

- Oracle Generative AI Certificate — Oracle, 2025
